

Centers offer periodic follow-up services for pregnancy, postpartum, women aged 15 to 49, infants, and children are offered through experienced healthcare personnel in line with the respective protocols of the Ministry of Health.

Visit the center you are registered with to protect your health and your baby.

Supporting the
Healthcare Services of
Migrants in Turkey

An unparalleled system, focusing entirely on delivering solutions for the healthcare needs of migrants has been created owing to the financial support extended by the EU and the strong structure of the MoH.

Laboratory and screening services

Migrant Health Centers are healthcare institutions where migrants can access primary diagnosis, treatment, rehabilitation, and preventive healthcare services in their language.

Extended Migrant Health Centers offer a wider range of services including internal medicine, gynecology and obstetrics, pediatrics, psychosocial support, and oral and dental health services.

Migrants get vaccinated in line with the **National Vaccination Calendar** to protect public health.

Screening services such as the heel prick test are offered **FREE OF CHARGE** to detect diseases and ensure that infants get a healthy start in life.

PUBLIC HEALTH IS IN SAFE HANDS

Our experienced and devoted healthcare professionals, totaling over four thousand in number, provide services to communities without interruption.
