A consortium may be a permanent, legally established grouping or a grouping which has been constituted informally for a specific procurement procedure. All partners of a consortium (i.e., the leader and all other partners) are jointly and severally liable to the contracting authority.

The participation or tender of an ineligible natural or legal person will result in the automatic exclusion of that person. In particular, if that ineligible person belongs to a consortium, the whole consortium will be excluded.

### **SELECTION CRITERIA**

#### **16. Selection criteria**

Capacity-providing entities

An economic operator (i.e. tenderer) may, where appropriate and for a particular contract, rely on the capacities of other entities, regardless of the legal nature of the links which it has with them. If the economic operator relies on other entities, it must in that case prove to the contracting authority that it will have at its disposal the resources necessary for the performance of the contract by producing a commitment by those entities to place those resources at its disposal. Such entities, for instance the parent company of the economic operator, must respect the same rules of eligibility and notably that of nationality as the economic operator relying on them and must comply with the selection criteria for which the economic operator relies on them. **Furthermore, the data for this third entity for the relevant selection criterion should be included in a separate document.** Proof of the capacity will also have to be provided when requested by the contracting authority.

With regard to technical and professional criteria, an economic operator may only rely on the capacities of other entities where the latter will perform the tasks for which these capacities are required.

With regard to economic and financial criteria, the entities upon whose capacity the economic operator relies, become jointly and severally liable for the performance of the contract.

The following selection criteria will be applied to tenderer. In the case of requests to participate

submitted by a consortium, these selection criteria will be applied to the consortium as a whole if not specified otherwise. The selection criteria will not be applied to natural persons and single-member companies when they are sub-contractors.

The tenderer shall not use previous experience which caused breach of contract and termination by a contracting authority as a reference for selection criteria.

The selection criteria for each tenderer are as follows:

**1) Economic and financial capacity** (based on item 3 of the request to participate form, or on item 3 of supply tender form). In case of tenderer being a public body, equivalent information should be provided. The reference period which will be taken into account will be **the last three (3) years** for which accounts have been closed.

1.a. The average annual turnover of the tenderer in the last three years must be equal or exceed the 50% tenderer's financial offer.

1.b. Current ratio (current assets/current liabilities) in the **last 3 (three) financial years** accounts of which have been closed must be at least 1. In case of a consortium, this criterion must be fulfilled by each member.

For tenderers submitting tenders for more than one lot, the average annual turnover of the tenderer in the last three financial years must exceed the cumulative amount of the financial offers of all the lots for which the tenderer submitted tenders. All supporting documents must be approved by Revenue Administration or certified accountants.

Companies that have been operational for less than three years will have to demonstrate an operational cash flow, which must exceed their financial offer for the years in which they have been operational.

**2) Professional capacity** (based on items 4 and 5 of the tender form for supply contracts). The reference period which will be taken into account will be the **last three (3) years** preceding the submission deadline.

2.a. The tenderer should have at least 3 (three) staff currently working in the related fields to this contract.

**3) Technical capacity** (based on items 5 and 6 of the request to participate form for service contracts and on items 5 and 6 of the tender form for supply contracts). The reference period which will be taken into account will be **last 5 (five) years** from submission deadline. **References must be contracts implemented by the legal entity (or legal entities) submitting the tender form (c4I\_tenderform\_en)** (with the exception of documented cases of company buyout or universal succession).

3.a. The tenderer has delivered supplies under **at most 2 (two) contracts for supply of generator with a budget of at least one-half (½) of its financial offer.**

This means that the contract the tenderer refers to could have been started at any time during the indicated period but it does not necessarily have to be completed during that period, nor implemented during the entire period. The tenderers are allowed to refer either to projects completed within the reference period (although started earlier) or to projects not yet completed. Only the portion satisfactorily completed during the reference period will be taken into consideration. This portion will have to be supported by documentary evidence (statement or certificate from the entity which awarded the contract, proof of payment) also detailing its value. If a tenderer has implemented the project in a consortium, the percentage that the tenderer has successfully completed must be clear from the documentary evidence, together with a description of the nature of the services provided/supplies delivered if the selection criteria relating to the pertinence of the experience have been used.
