Any tenderer may state in its tender that it would offer a discount in the event that its tender is accepted for more than one lot. Tenderers may not submit a tender for a variant solution in addition to their tender for the supplies required in the tender dossier.

11. Tender guarantee

This guarantee will be called upon if the tenderer does not fulfil all obligations stated in its tender.

12. Performance guarantee

The successful tenderer will be asked to provide a performance guarantee of 6% of the amount of the contract at the signing of the contract. This guarantee must be provided together with the return of the countersigned contract no later than 30 days after the tenderer receives the contract signed by the Contracting Authority. If the selected tenderer fails to provide such a guarantee within this period, the contract will be void and a new contract may be drawn up and sent to the tenderer, which has submitted the next cheapest compliant tender.

13. Information meeting and/or site visit

No Information meeting is planned.

14. Tender validity

Tenders must remain valid for a period of 90 days after the deadline for submission of tenders. In exceptional circumstances, the Contracting Authority may, before the validity period expires, request that tenderers extend the validity of tenders for a specific period (see part 8.2 of the instructions to tenderers).

15. Period of implementation of tasks

The implementation period for Lot 1, Lot 2, Lot 3, Lot 11 and Lot 14 will last 60 calendar days, starting from the commencement of the Contract and ending on the day of issuance of the certificate of Provisional Acceptance. The implementation period will include delivery, installation, training and Provisional Acceptance.

The implementation period for Lot 4, Lot 5, Lot 6, Lot 7, Lot 8, Lot 9, Lot 10, Lot 12, Lot 13 and Lot 15 will last 90 calendar days, starting from the commencement of the Contract and ending on the day of issuance of the certificate of Provisional Acceptance. The implementation period will include delivery, installation, training and Provisional Acceptance.

16. Selection criteria

The following selection criteria will be applied to tenderers. In the case of tenders submitted by a consortium, these selection criteria will be applied to the consortium as a whole unless specified otherwise. The selection criteria will not be applied to natural persons and single-member companies when they are sub-contractors:

1) **Economic and financial capacity of tenderer** (based on i.a. item 3 of the Tender Form for a Supply Contract). In case of tenderer being a public body, equivalent information should be provided. The reference period which will be taken into account will be the last three years for which accounts have been closed.

The selection criteria for each tenderer are as follows:

- The average annual turnover of the tenderer in the last three years must be equal or exceed the 50% tenderer's financial offer.

For tenderers submitting tenders for more than one lot, the average annual turnover of the tenderer in the last three financial years must exceed the cumulative amount of the financial offers of all the lots for which the tenderer submitted tenders.

Companies that have been operational for less than three years will have to demonstrate an operational cash flow, which must exceed their financial proposal for the years in which they have been operational.

For calculating annual turnovers in Euro, the rates for June of each year shall be used.

2) **Professional capacity of tenderer** (based on i.a. items 4 and 5 of the Tender Form for a Supply Contract). The reference period, which will be taken into account will be the last 5 years from submission deadline.

- The tenderer shall provide written evidence of his, or manufacture's, if the tenderer is not the manufacturer, current and valid certificate for the Quality Management System.
- At least 3 staff members currently working for the tenderer in fields related to this contract;

3) **Technical capacity of tenderer** (based on i.a. items 5 and 6 of the Tender Form for a Supply Contract). The reference period, which will be taken into account, will be the last 5 years from submission deadline.

a) For Lot 1, Lot 2:

The tenderer has delivered supplies under at most two contracts with a budget of at least one-fourth ($\frac{1}{4}$) of the financial proposal of the lot being tendered in supply of furniture and/or medical furniture.

b) For Lot 3, Lot 4, Lot 5, Lot 6, Lot 7, Lot 8, Lot 9, Lot 10, Lot 11, Lot 12:

The tenderer has delivered supplies under at most two contracts with a budget of at least one-fourth ($\frac{1}{4}$) of the financial proposal of the lot being tendered in supply of medical equipment(s) and/or medical device(s).

c) For Lot 13, Lot 14, Lot 15:

The tenderer has delivered supplies under at most two contracts with a budget of at least one-fourth ($\frac{1}{4}$) of the financial proposal of the lot being tendered in supply of medical consumable(s).

This means that the contract the tenderer refers to could have been started or completed at any time during the indicated period but it does not necessarily have to be started and completed during that period, nor implemented during the entire period. Tenderers are either allowed to refer to projects completed within the reference period (although started earlier) or to projects not yet completed. In the first case, the project will be considered in its whole if proper evidence of performance is provided (statement or certificate from the entity, which awarded the contract, final acceptance). In case of projects still ongoing only the portion satisfactorily completed during the reference period will be taken into consideration. This portion will have to be supported by documentary evidence (similarly to projects completed) also detailing its value.

An economic operator may, where appropriate and for a particular contract, rely on the capacities of other entities, regardless of the legal nature of the links, which it has with them. Some examples of when it may *not* be considered appropriate by the Contracting Authority are when the tenderer rely in majority on the capacities of other entities or when they rely on key criteria. If the tenderer rely on other entities, it must prove to the Contracting Authority that it will have at its disposal the resources necessary for performance of the contract, for example by producing a commitment on the part of those entities to place those resources at its disposal. Such entities, for instance the parent company of the economic operator, must respect the same rules of eligibility and notably that of nationality, as the economic operator. Furthermore, the data for this third entity for the relevant selection criterion should be included in the tender in a separate document. Proof of the capacity will also have to be furnished when requested by the Contracting Authority.

With regard to technical and professional criteria, a tenderer may only rely on the capacities of other entities where the latter will perform the tasks for which these capacities are required.

With regard to economic and financial criteria, the entities upon whose capacity the tenderer relies, become jointly and severally liable for the performance of the contract.

For purposes of converting another currency to Euro, the Conversion rates, published in the Official Journal of European Communities shall be used, which can be found at: http://ec.europa.eu/budget/contracts_grants/info_contracts/inforeuro/index_en.cfm
